

RadComms08 Meeting Future Spectrum Needs

ACMA's draft Spectrum Management Principles

Giles Tanner
General Manager Inputs to Industry

Session 1
RadComms08
30 April – 2 May 2008

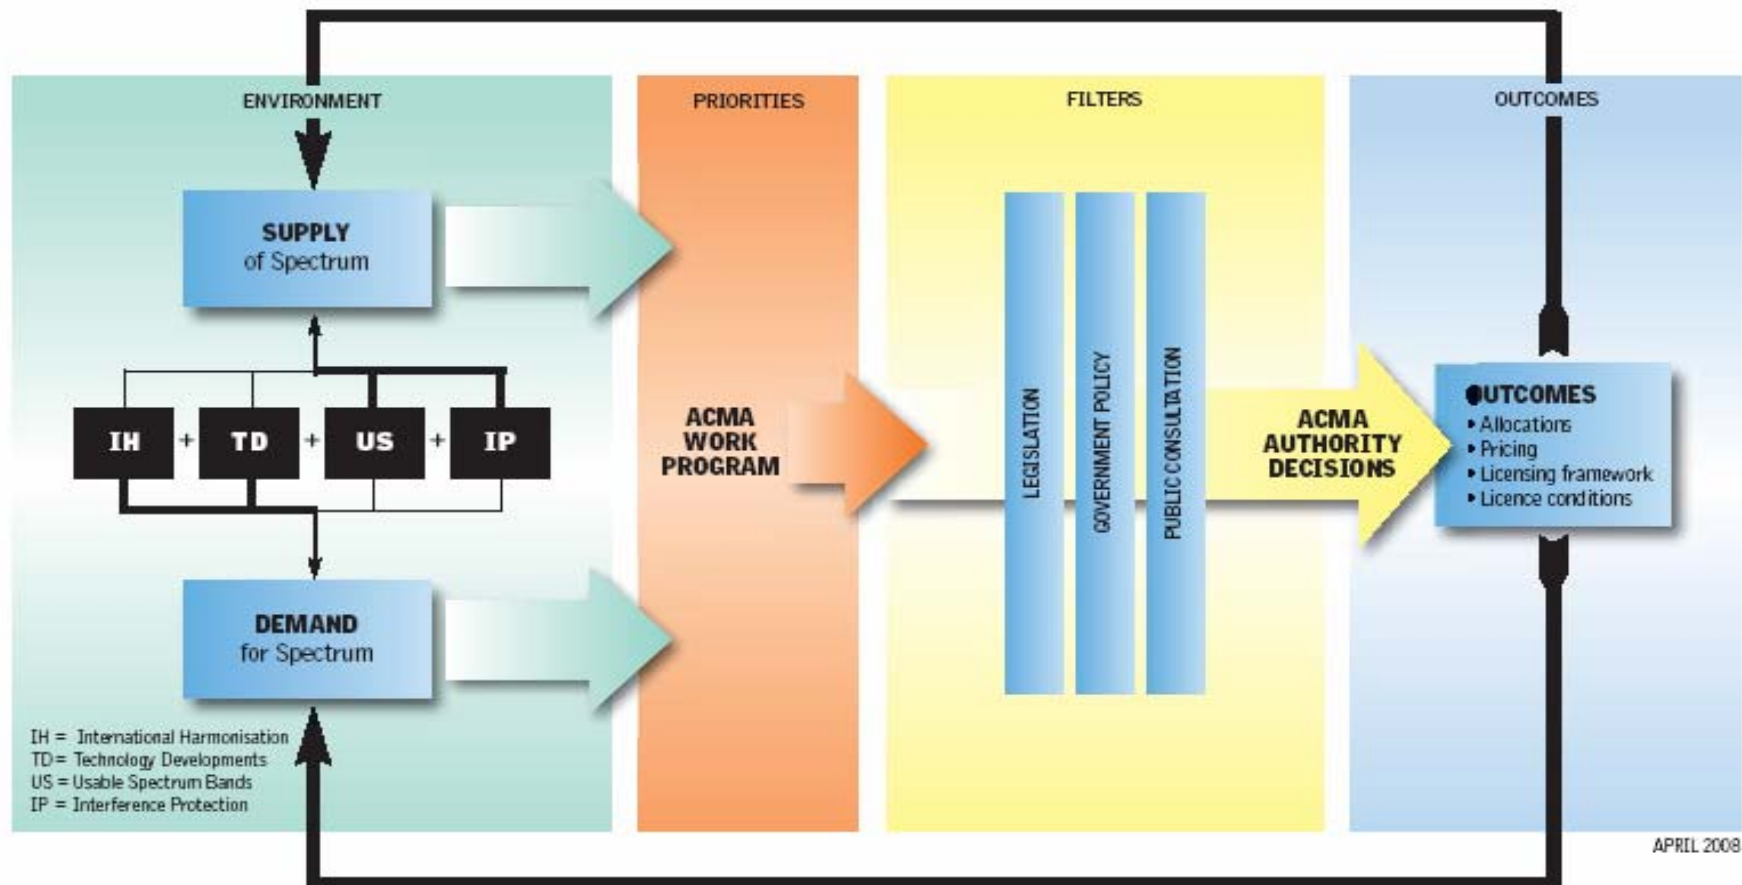

Spectrum regulation: value-adding processes

- Regulatory development and rule-making
- Spectrum planning
- Licensing policy and licence allocation
- Policy on taxes and charging
- Compliance; enforcement
- Revenue collection
- Stakeholder management

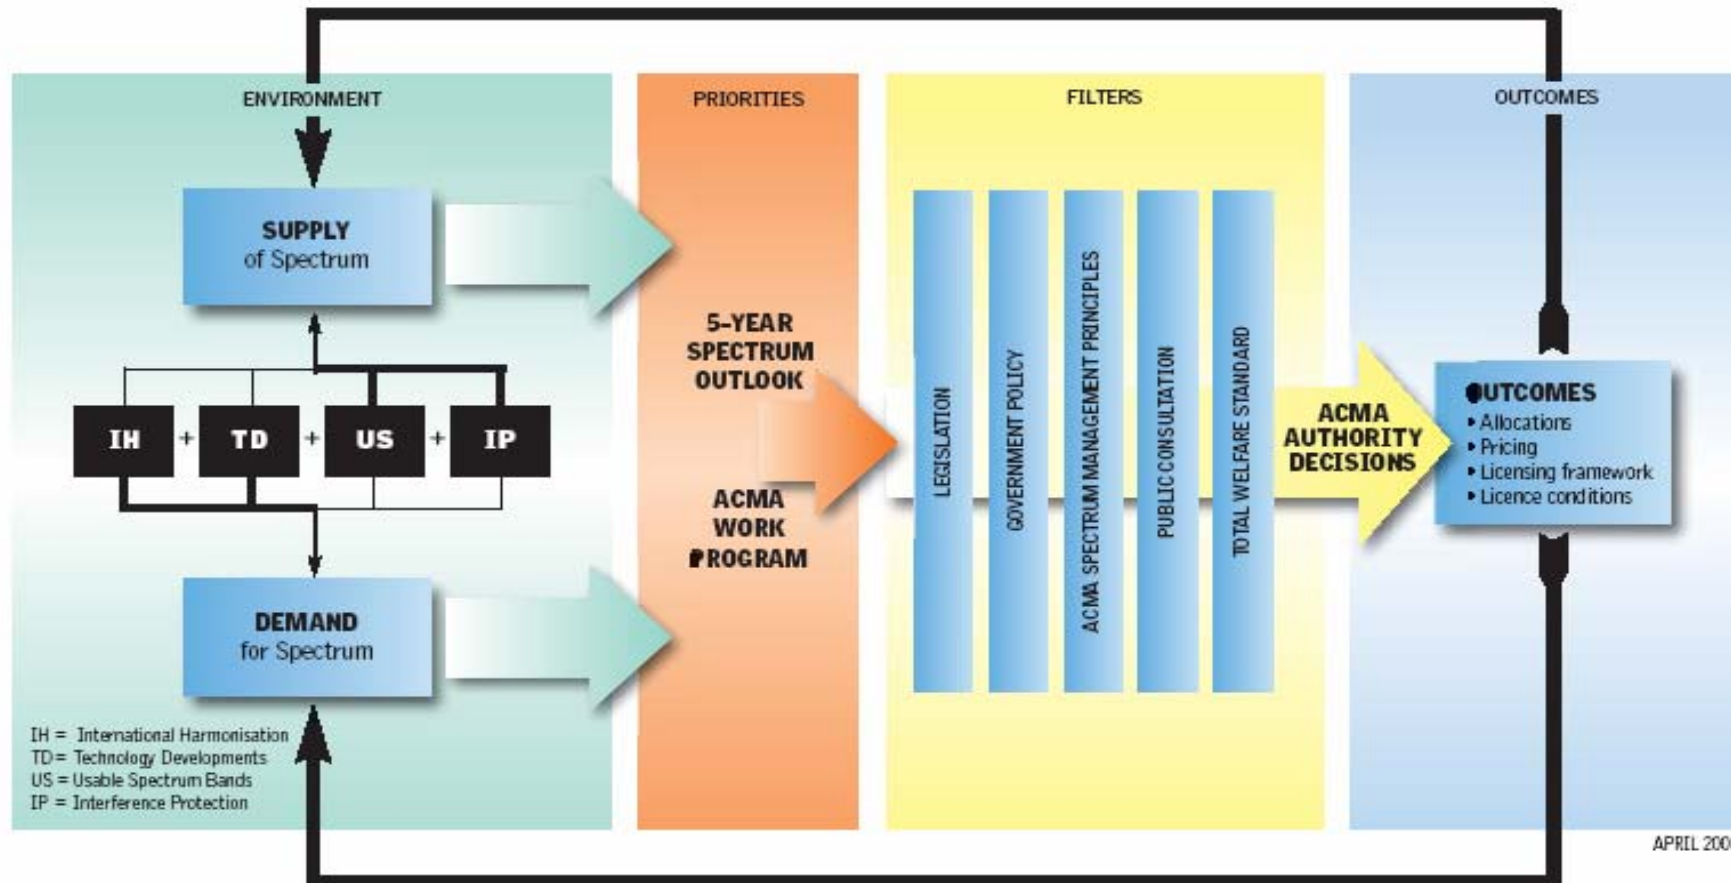

ACMA's Spectrum Management Decision Framework (Current)

ACMA's Spectrum Management Decision Framework (Proposed)

Do you have any comments on the five draft principles?

Are there principles other than these five that ACMA should use to guide spectrum management decisions?
