The formula for calculating first release Australian drama programs is: **Drama Score = Format Factor x Duration of program (in hours)**.

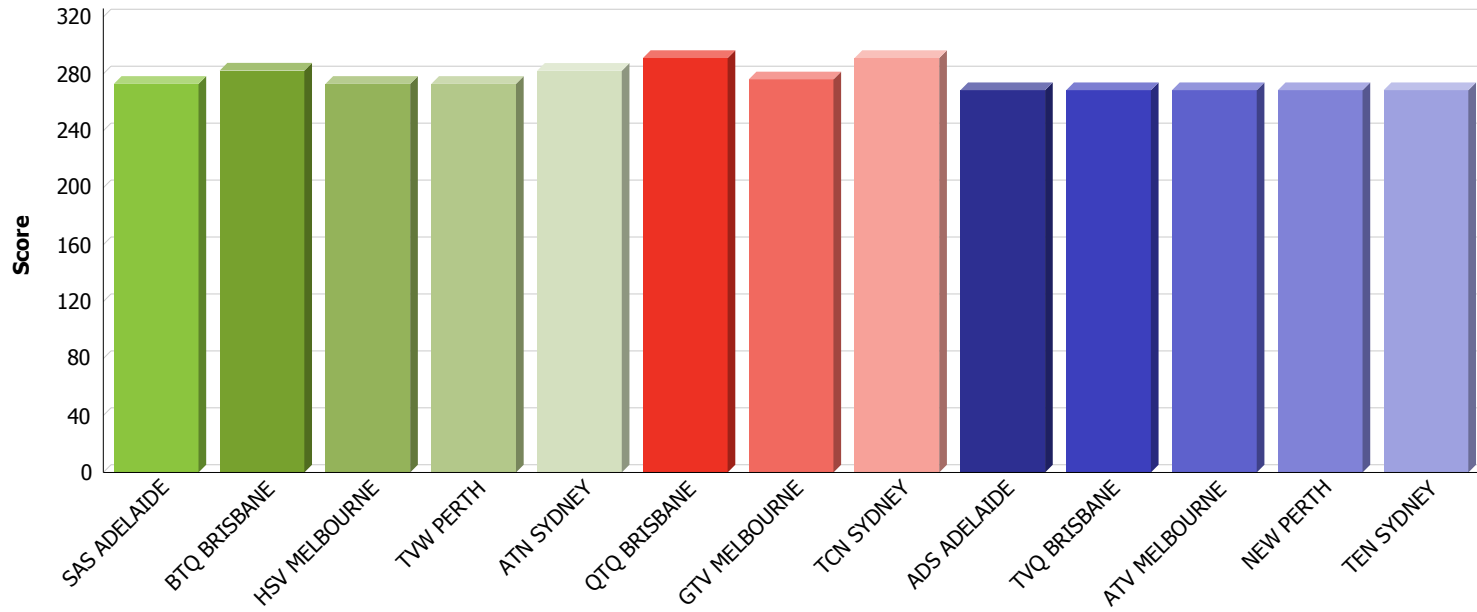

The Format Factor for drama is:

- 4** for a feature film that has been acquired for at least a certain amount of licence fee. For 2003, the minimum licence fee required was \$150,000. For 2004 and later years, the licence fee is subject to changes to take into account any increase in the All Consumer Price Index (CPI). The formula for calculating the licence fee for 2004 and later years is set out in section 17 of the Australian Content Standard. These licence fees are published in the *Australian drama format factor and licence fees* document available on the ACMA website.
- 4** for a telemovie, mini-series, or self-contained drama of less than 90 minutes' duration
- 3.2** for a feature film that has been acquired prior to 11 July 2002
- 3** for a series/serial produced at the rate of one hour or less per week and acquired from an independent producer for at least a certain amount of licence fee per hour. For 2003, the hourly licence fee required was at least \$300,000. For 2004 and later years, the licence fee required is subject to changes to take into account any increase in the All Consumer Price Index (CPI). The formula for calculating the licence fee required for 2004 and later years is set out in section 17 of the Australian Content Standard. These licence fees are published in the *Australian drama format factor and licence fees* document available on the ACMA website.
- 2.5** for a feature film that does not meet the format factor 4 or format factor 3.2 requirements
- 2.5** for a serial or series produced at the rate of one hour or less per week, but does not meet format factor 3 requirements
- 1** for a series/serial produced at the rate of more than one hour per week
