

Associated Newspaper Register

As at Date: 23/11/2016

Under **section 59** of the *Broadcasting Services Act 1992 (the BSA)*, the ACMA is required to maintain an Associated Newspaper Register.

The BSA defines newspaper at **Section 6**:

newspaper means a newspaper that is in the English language and is published on at least 4 days in each week, but does include a publication if less than 50% of its circulation is by way of sale.

Section 59(3) of the BSA provides:

If the ACMA is satisfied that at least 50% of the circulation of a newspaper is within the licence area of a **commercial television broadcasting licence** the ACMA is to enter the name of the newspaper in the Register in relation to that licence area.

Section 59(4A) of the BSA provides:

If the ACMA is satisfied that: (a) at least 50% of the circulation of a newspaper is within the licence area of a **commercial radio broadcasting licence**; AND (b) the circulation of the newspaper within that licence area is at least 2% of the licence area population; the ACMA must enter the name of the newspaper in the Register in relation to the licence area.

Section 51 of the BSA provides:

If: (a) more than 30% of the licence area population of a licence area is attributable to an overlap area; OR (b) a licence area is entirely within another licence area; the rules of this Part apply to the 2 licence areas, but not between those licence areas and other licence areas, as if the 2 licence areas were one.

Section 6 of the BSA defines overlap area as follows:

overlap area, in relation to a licence area part of which is within another licence area, means the area of overlap between the 2 licence areas.

For details of population and overlapping licence areas please refer to the [Section 30 Schedule](#) available on the ACMA's website.
