

Determination of Population Figures under Section 30 of the Broadcasting Services Act 1992

Broadcasting Services Act 1992

The AUSTRALIAN COMMUNICATIONS AND MEDIA AUTHORITY makes this Determination under section 30 of the *Broadcasting Services Act 1992*.

Date *11 April* 2016

James Cameron
[signed]
Member

Jennifer McNeill
[signed]
General Manager

1. Determination

This Determination determines, under section 30 of the *Broadcasting Services Act 1992* (BSA), licence area populations (using 2011 Census data) for each of the commercial radio and television broadcasting licence areas in Australia, and the number that is to be the population of Australia for the purposes of the BSA.

2. Specification

In determining the population for each licence area, the ACMA has specified, for the purposes of the BSA:

- (a) the percentage of the population of Australia constituted by that licence area population
- (b) the percentage of that licence area population that is attributable to an overlap area.

3. Commencement

This Determination comes into effect on the day it is made.

4. Previous determination

The determination made by the ACMA under section 30 of the BSA on 16 June 2009 is revoked.

Note: See subsection 43C(4) and section 52 of the BSA in relation to circumstances in which that determination, or older determinations, may be taken to remain in force.

5. Determination of population of Australia and operation of the Schedule

- (1) Under subsection 30(2) of the BSA, and for the purposes of the BSA, the population of Australia is taken to be 21 458 718.
- (2) The Schedule to this Determination sets out the following for each licence area:
 - (a) in the first column:
 - (i) in bold text and shaded grey, the name of the licence area (*main licence area*);
 - (ii) beneath the main licence area, in plain text, the name of each licence area that overlaps the first licence area (*overlapping licence area*);
 - (b) in the third column, in relation to a main licence area – in italics and shaded grey, the licence area population for the main licence area, determined under subsection 30(1) of the BSA;
 - (c) in the fourth column, in relation to an overlapping licence area for a main licence area – in plain text, the percentage of the population of the main licence area that is attributable to the relevant overlap area, specified under paragraph 30(5)(b) of the BSA;
 - (d) in the fifth column, in relation to a main licence area – in italics and shaded grey, the percentage of the population of Australia constituted by the population of the main licence area, specified under paragraph 30(5)(a) of the BSA.

Note 1: The second column in the Schedule sets out the callsign or broadcast service licence (*BSL*) of commercial radio and television broadcasting services that serve the first licence area (shaded grey and italicised) and any overlapping licence area (plain text). It is included for information only.

Note 2: The third column in the Schedule also sets out the population of the first licence area that is contained within an overlap area (plain text), by reference to the relevant overlapping licence area. It is included for information only.

Note 3: The fifth column in the Schedule also sets out the percentage of the population of Australia constituted by an overlap area (plain text), by reference to the relevant overlapping licence area. It is included for information only.

Broadcasting Services Act 1992 Section 30 Schedule

The population of Australia for the purposes of this schedule is 21 458 718*.
