

# SUPER RADIO NETWORK

Broadcasting Live to approx. 90% of New South Wales and Southern Queensland

## SUBMISSION BY SUPER RADIO NETWORK ACMA PROPOSAL TO VARY NOWRA LICENCE AREA PLAN CONSULTATION PAPER DATED JANUARY 2020

The Super Radio Network (SRN) is a commercial radio licensee holding in excess of 40 commercial radio licences – predominately in New South Wales.

SRN write to strongly support the extensive and thorough submission made by Commercial Radio Australia (CRA) in relation to the ACMA proposal to vary the Nowra Radio Licence Area Plan, and in particular stress the following be considered:

The Nowra market, and indeed all radio markets, are well serviced with diverse radio offerings by the commercial radio sector, ABC and SBS, community broadcasters and narrowcast licences. Given the current economic climate, decreasing advertising revenues, the impact on regional markets of recent natural disasters and the current complex work underway across the sector on the ACCC Report which may lead to significant changes in the regulatory landscape, issuing another licence in the Nowra market would not only impact negatively on that market but would set an undesirable precedent given current market conditions.

It is important the integrity of the existing regional radio commercial sector be retained. Any proposal to change same is strongly opposed.

Should there be any comments or questions in relation to the above please contact Mr Greg Cupitt, consultant to Super Radio Network on +61 419 230 149.

Yours Sincerely

Greg Cupitt for Bill Caralis  
General Manager
