Hi Stewart,

We do still have around 200+ changes and others on the go at the moment and are gradually chipping away at them.

Warm regards,

Sheree.

Sheree Campton

Administration Officer | Office of Maritime Communications | AMC – Amateur Radio

Thanks Sheree

Yes fingers crossed it has the desired effect. We have received a number of responses to the message, the good news is the majority of them are positive. How about you?

Thanks for the update on the backlog. In terms of the volume of remaining applications, what are the numbers 10s or more?

Have a great day

Stewart White

Hi Stewart,

Thank you for placing a message in the bulletin regarding respectful behaviour, I do hope that this message sees an improvement in attitude.

Regarding the current workload, the office is making its way gradually through the callsign applications and we are currently nearing the half way point. The processing of these applications has been impacted by the significant rise in both marine and amateur applications through the office.

Warm regards,

Sheree Campton

Hi Sheree

How are things going and have you had a chance to clear or get close to clearing the backlog of amateur applications? And hopefully our message about treating the AMC with respect has made a difference.

Kind regards

Stewart White
