

Licensee notification to the ACMA under section 61CG of the BSA (minimum service standards for emergency warnings)

Please use this form to inform the ACMA how regional commercial radio licensees will comply with the minimum service standards for emergency warnings under section 61CG of the *Broadcasting Services Act 1992*.^{*} This form must be completed by an authorised representative of the licensee/s. Please complete all 3 parts of the form.

Part 1: Contact details

All questions are mandatory and should be completed by an authorised representative of the licensee/s.

Contact name	
Contact email address	
Contact phone number	
Date	

Part 2: Compliance with the minimum weekly service standards for emergency warnings

Please use the table in Part 3 on the following page to set out all of the licences to be covered by this notification. Please insert additional pages if required.

For each licence listed in the table, has the licensee implemented a set of internal procedures to enable the timely and accurate broadcast of emergency warnings that are supplied by emergency service agencies, as required by section 7 of the Commercial Radio Code of Practice currently in force? This can include by adhering to a memorandum of understanding between Commercial Radio Australia and the relevant state government for the broadcasting of emergency information:

- Yes
- No

If you selected 'NO', please list the licence numbers for licences that are not subject to these internal procedures. In the final column of the table in Part 3 on the next page, please tell us how each licensee not subject to those internal procedures will comply with the emergency warnings requirement.

BSL no.	BSL no.	BSL no.	BSL no.	BSL no.

Part 3: Licences and licensees covered by this notification

Tell us the licensees and licences to be covered by this notification. Note that you are only required to to complete the final column for those licences for which you answered 'No' and listed in Part 2 (on the previous page).

Licensee	BSL no.	Call sign	On-air-ID	Licence area	How the licensee will comply with the emergency warnings requirement

*Under subsection 61CE(9) of the *Broadcasting Services Act 1992* a regional commercial radio broadcasting licensee meets the **minimum weekly service standards for emergency warnings** during a particular week if:

- (a) on one or more occasions during that week, one or more emergency service agencies asked the licensee to broadcast emergency warnings, and the licensee broadcast those warnings as and when asked to do so by those emergency service agencies; or
- (b) there was no occasion during that week when an emergency service agency asked the licensee to broadcast an emergency warning.
