

## **Appendix 9 (page 1).**

### **Proposed Program Format:**

#### **Programming:**

We propose several special interest programs, including local sports roundups, we propose do participate in outside broadcasts of local sporting events. We propose to broadcast a local Hawkesbury Garden Association program. We would like to cover a local church service each week and broadcast it. Community members who are unable to attend their churches for different reasons as in health etc. can listen to our broadcast.

We will actively seek other special interest groups that may be interested in radio.

We are very much aware of the requirement of Australian Content of music being no less than 25% and will strictly adhere to this and other music regulations.

While we have enclosed a sample 'program' that is centered on the broadcast of music programs, it would be our intention to involve as many local organisations as possible to provide maximum local content. Such local content would comprise regular features as well as community announcements during flood, bush fire and other emergencies.

Such local organisations include: SES, RFS, Police, Flood watch, local news media, historical society, Seniors, Beyond Blue, Lifeline, Probus, Rotary, Lions, ethnic groups, theatre groups, etc.

Our emphasis will be on 'listening' to our community, assessing their needs, and responding accordingly. We will invite the disabled Associations, ethnic associations, Seniors in the Hawkesbury, Beyond Blue and Lifeline to become part of a magazine type radio programs at the station. We will be inviting the local Lions, Rotary clubs and the Hawkesbury Combined Probus Club to participate in suggestions of how we can best serve their valuable associations of our community.
