**Subject:** Pro Bono Australia Final assessment for review (\*eligible recommendation) [SEC=OFFICIAL]

Hi Liz, here is the link to the final assessment for Pro Bono Australia. The prelim assessment found they needed more info (stat dec) for the Revenue test and they had failed the Proof standards test because they could not be confirmed as APC member and had not provided a complaints mechanism for review. Both issues are resolved and I am recommending this application be found eligible.

Note: The review of the Content test found that the primary link was in eligible but their secondary News Link met the test. I will ensure the correct URL is added to the register if you agree with the recommendation to pass this application.

Happy to discuss.
