APPLICATION FOR ISSUE OF AMATEUR RADIO CALL SIGN AND OTHER MATTERS

Dear Sir

I had a very productive discussion with an officer with your new contracted service provider in Hobart. He suggested I forward this ACMA form for an amateur radio call two letter call sign to you. At this this time I wish to express some personal views about the WIA and the ACMA in respect of that previous management in a constructive manner. I would ask for some indulgence as 
. I would welcome the opportunity to work in cooperative and respectful way of addressing some the issues in an informal way where ever possible.

It concerns me that the WIA has conducted ballots, in other words a lottery, for two letter radio call signs in Victoria, NSW and Queensland but not for other States. Apart from potential issues with the Constitution paragraph 117 and 118 it would appear that the ACMA and WIA might have overlooked the relevant State lottery licence requirements every time a ballot (read in other words a lottery) was conducted. That involved State laws for keeping of trust accounts, drawing protocols and the like when conducting ballots/lotteries. From what I have not been able to ascertain from the internet if you intend to conduct ballots/lotteries for two letter call signs and charge accordingly.

When I asked for the available two letter call signs the WIA was reluctant and did not make a proper disclosure to me of the available call signs.

It is fortunate that the Electronic Transactions Act 1999 section 10 permits me to make an electronic signature to this letter and the attached Radcom form. I request you action this application for the issue of a two letter VK3 Advance licence and my call sign preference is this:

1. VK3OM
2. VK3HV
3. VK3IQ
4. VK3KN
5. VK3QC
6. VK3QY
7. VK3UK
8. VK3GZ
9. VK3SM
10. VK3KI

The last one is one the WIA would consider to be sacrosanct.

N

Will you please advise me of the relevant charges and allocated call sign so that I make the appropriate payment. If for

any reason you are unable to process this application or that this application attracts a fee for a ballot would you please treat this as a request pursuant to the Administrative Decisions (Judicial Review) Act 1977

I would prefer not to involve an FOI or ADJR requests nor the Auditor General, Ombudsman, Privacy Commissioner and the Child Protection Commissioner in what might be better addressed on an informal basis at a later date.

Yours respectfully

A solid black rectangular box used to redact a signature.
