

Dear John,

I hope you also had a wonderful break and start to the new year.

Thanks for sending through the reminder on this one. ARPANSA has no specific comments on ACMA's proposed changes to radiocommunications equipment regulation. As outlined in section 4 of RPS S-1, ARPANSA supports the adoption of relevant IEC and IEEE standards, and their updates, for the verification of compliance of EME public exposure limits.

Please don't hesitate to contact me if you require anything further from our side.

Kind Regards,
Sarah
