RE: RESPONSE TO THE IMPLEMENTATION OF THE SPECTRUM PRICING REVIEW (Part 2) ("PRICING REVIEW – 2")

The following is a submission from the Sports Entertainment Network Pty Ltd (SEN) in relation to the implementation of the Spectrum Pricing Review (Part 2)

SEN supports the ACMA proposal to reduce tax rates on transmitter licences used to provide high-power open narrowcasting (HPON) services to bring them closer in line with commercial broadcasting taxes and charge different tax rates for television, FM and AM HPON licences.

We do not wish to provide comments in relation to Question 1 – 6 of the Pricing Review - 2.

In relation to Question 7 we support the submission lodged by Australian Narrowcast Radio Association (ANRA), that tax rates should be similar to those rates charged for commercial radio and support the resulting rates per location as provided on page 16 Table 7: Proposed HPON taxes of the Pricing Review – 2.

We also support the removal of CPI as noted in ANRA's submission.

Finally in relation to Question 8 we provide our support for ANRA's submission as they have noted.

We appreciate the opportunity to make comment and the reform that is being considered.

Regards
