Hi [REDACTED]

Thank you for your enquiry.

I assume you are operating under either a Land Mobile apparatus licence or under the Radiocommunications (Citizen Band Radio Stations) Class Licence 2015. There are no restrictions on the language used for communication.

Regards,

Spectrum Licensing Policy

SURVEY?:

Comments: Is it illegal to use UHF talk channels in another language other than English. For example, if a company operating in a metro area has all employees speaking one particular language, are they permitted to operate on that channel and converse in that language. What are the current regulations, if any, pertaining to this and can you please direct me to them specifically. I already know vulgar language is banned, but nothing beyond that. Thanks.
