Dear Sir/Madam

RE: Revenue Declaration

As [REDACTED] is a Registered Carrier ([REDACTED]) and wish to advise you that we have not connected any customers to any working service.

[REDACTED] only completes pit and pipe infrastructure design and Build and a Third Party Vendor has the option to connect those customers to a working service. We are hoping in the next few years to get on board with an established third party carrier and service provider to get our service up and working.

At the moment we do not connect any customer to a telephone or internet service.

Sincerely

[REDACTED]
