Subject:

Alcohol Ads on TV

[CAUTION - EXTERNAL]

To whom it may concern,

It is not acceptable to be pushing a drug - which is alcohol - a highly addictive and destructive drug - on TV, especially during sporting events where it is proven to increase family harm and violence.

Having lived experience as a child of the effects of alcohol on my family and the constant advertising of this drug, you must make a change to this regulation.

Please for the sake of Australian families and our culture. Stop advertising alcohol.
