Subject: Free TV code review - changes to the M classification zone

Message Body:

I disagree with the changes to the timings of M classification zone to now allow M content to be broadcast during the day on school holidays, weekends and public holidays. Children will most likely be watching television between 10am and 3pm on these days, so I am very much opposed to alcohol advertising during these hours. Either change alcohol advertising to MA15+ or leave the M classification zone hours as they currently are.
