Subject: Reducing TV ads for alcohol - TV code review

Message Body:
Hi there

[REDACTED]. I can see first hand the negative impact alcohol has on individuals, families, cultures and communities. If alcohol was discovered now - it would be illegal. The TV industry can help reduce impact on the Australian communities by reducing the hours it allows the alcohol industry to advertise on TV. The alcohol industry already has a major influence over our politicians and decision makers. The cost and the impact on the public health system is huge.

Please reduce the amount of alcohol advertising on TV especially during sporting events and any other large audience broadcasts in particular those in which children and teenagers are watching.

This is everybody's responsibility!

Kind Regards
[REDACTED]
