Subject: Free TV Australia "Alcohol advertising"

[CAUTION - EXTERNAL]

From: [REDACTED]
Subject: Alcohol advertising

Message Body:

I strongly oppose any extension of alcohol or junk food advertising hours on free to air television. The harms of alcohol are well established, including during popular sporting events. The harms of junk food are well established in the increasing scourge of obesity in this country. Increasing total exposure of children to junk food and alcohol advertising, including during school holidays and sporting events, is a gross negligence on the part of the regulator. This is unacceptable, Free TV has a duty of care to our communities in regard to regulating the advertising of harmful substances including alcohol and junk food, especially to children, which can not be understated.
