Message Body:

I believe we need to start reminding viewers of some of the statistics with Alcohol, and that it is a drug. Many of the social problems our athletes get caught up in are a direct result of the major sponsors (alcohol company) product. Similar to smoking, when will be legislating - no more colourful labels, flashy lights and funny promos. Serious health warning about the links to cancer , road fatalities, violence towards Authority figures like Police causing trauma, and of course the Domestic violence statistics. Thanks
