ACMA file reference ACMA2023/415-10

Dear Mr ^{Michael}Cosgrave

Submission to the Australian Communications and Media Authority

Thank you for your letter and associated submission of 15 January 2024.

The Authority has now considered in detail the package provided to it by Communications Alliance (CA) on 14 December 2023 and has provided feedback to CA about where we expect to see further development of the proposed Code changes and drafting.

The Authority noted your submission in its deliberations on the CA package. However, as the code development process is not yet complete, the Authority did not need to form a view at this stage on the adequacy of CA's consultation process.

We look forward to further advice from you at the conclusion of the code development process.

The ACMA does not intend to conduct a public consultation and as such will not publish your submission. However, I note that CA has published the submission to its website.

Yours sincerely

Nerida O'Loughlin PSM
