

Please provide feedback about the Aboriginal-inspired art workshop

It was a mindful and meaningful experience.

I had a very enjoyable time. [REDACTED] was a great teacher and the activity was very therapeutic and a great way to learn and engage.

[REDACTED] did a wonderful job explaining and teaching us about Aboriginal art, all from afar! It was a fun, team-building activity.

It was great! It would have been good to have more sessions so that more people could participate

This was a great activity and well facilitated. It was great to learn about the meaning behind certain commonly seen elements.

It was a nice break from work and would love to do other hands-on art or craft workshops

I'm not artistic but really enjoyed the workshop.

Please provide further feedback about the indigenous-inspired morning tea

[REDACTED] presentation was great. I loved the food, stories and playlist. So creative and fun!

It was a really great event with tasty food and it was nice to see so many colleagues gathered together.

There wasn't enough food for the number of people who attended

It was absolutely wonderful with such a great turnout from every team in the ACMA

It was fantastic. The quantity could have been greater but the pieces I tried were delicious.

It would have been nice if there was more information provided on the food.

Please provide further feedback about any of the NAIDOC Week events or communications. i.e what was done well or what could be improved.

Keep up the good work!

It would be great to continue to do more activities that engage with various aspects of First Nations culture. I would also be interested to engage in educational activities to learn more about the communities and their history closer to Pyrmont and broader Sydney.

As I'm part of eSafety I wasn't able to access the MS Teams channel during the week.

I did not know that there was a NAIDOC Week MS Teams channel until too late, there could have been better comms about it

Everything was done well and, if I wasn't so busy, I would have done the art workshop. I was unable to find the MS teams channel though when I went to join it. Maybe a link could be provided in the future (there wasn't any sort of notification about the Teams channel - I only found out at the end of NAIDOC week).

I appreciate the team's thoughtfulness in putting everything together.

the art workshop was really well done.

NAIDOC Week 2024

Please provide ideas of what other events you would like to see in NAIDOC Week 2024.

More speakers, educational talks from academics or community leaders

An offsite, immersive experience, like a cultural tour would be fantastic. I think everyone is ready for some deeper learning experiences.

Try to not make NAIDOC week a standalone event once a year, we should have more integration of Indigenous culture year-round (e.g. having Indigenous catering at other events)

I thought what we had was wonderful so I think it should continue on as is.

Another morning tea would be great please!
