

**Australian Radiofrequency Spectrum Plan (2025 Update) 2021**  
**Decision under subsection 10(10)**

Pursuant to clause 10(10) of the *Australian Radiofrequency Spectrum Plan (2025 Update) 2021* (Spectrum Plan), I, Chris Worley, delegate of the Australian Communications and Media Authority, being satisfied that the use of the radiodetermination service for vehicle speed radars in the frequency range 24.25-24.320 GHz:

- (i) is an unspecified service in respect of the 24.25-24.320 GHz frequency band in the Australian Table of Allocations in the Spectrum Plan; and
- (ii) is unlikely to cause harmful interference to another service;

approve the 24.25- 24.320 GHz frequency band for use by the radiodetermination service for the above-stated application.

Dated: 26 November 2025
