

Australian Bookmakers' Association
ABN 68 066 699 607

26 November 2025

To whom it may concern

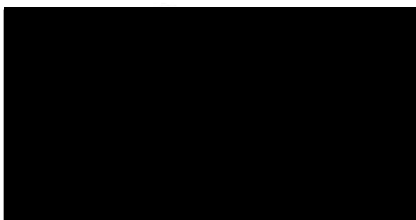

The Australian Bookmakers' Association (**ABA**) represents online wagering operators throughout Western Australia, South Australia, Victoria, New South Wales, Australian Capital Territory and Queensland who are not part of the Australian Wagering Council. There are no online operators to our knowledge in Tasmania

The wagering turnover achieved by each bookmaker is dependent upon the number of clients , their frequency of wagering and their available spend.

ABA members have noted that more than ninety per cent of the Betstop Cost Recovery will be borne by the top ten users, however, concerns remain as to whether online bookmakers with smaller turnovers can acquire any relief from the Betstop charges with the establishment of a turnover threshold?

Your advice as to whether the setting of a threshold is possible under the existing legislation is sought.

Yours faithfully

National Executive Officer
