Subject: Re alcohol advertising have your say ending soon

I would like to make my opinions on advertising of alcohol known and included in the ALMA'S current running pole if this is available for me to do so.

I strongly believe there should not be a single exemption for alcohol to be advertised. The devastation this poison has caused is beyond the depressing history of addiction and has lasting generational health, financial, economical affect. The multi layered effects are not all well published as the statistics are not always able to be supported, or collected in ethical ways.

There are too many elements of financial exploitations that occur with the continuous under valued disproportionate scale of consequences. I beg for more change and ask that we expand this to all areas such as the use of alcohol in shool charity organisations and fund raising events. This level of complaisancy is offensive to the families who live every day with the scars of what this can cause in a family for ever.

Please let me know if this is not the correct purpose for the email link to add the

above statement where it can be used.
