Associated Newspaper Register

As at Date: 20/05/2026

Under sub**section 59(1)** of the *Broadcasting Services Act 1992* (**the BSA**), the ACMA is required to maintain an Associated Newspaper Register (the register).

The BSA defines newspaper at **Section 6**:

> ***newspaper*** means a newspaper that is in the English language and is published on at least 4 days in each week, but does include a publication if less than 50% of its circulation is by way of sale.

Subsection 59(3) of the BSA provides:

> If the ACMA is satisfied that at least 50% of the circulation of a newspaper is within the licence area of a **commercial television broadcasting licence** the ACMA is to enter the name of the newspaper in the Register in relation to that licence area.

Subsection 59(4A) of the BSA provides:

> If the ACMA is satisfied that: (a) at least 50% of the circulation of a newspaper is within the licence area of a **commercial radio broadcasting licence**; AND (b) the circulation of the newspaper within that licence area is at least 2% of the licence area population; the ACMA must enter the name of the newspaper in the Register in relation to the licence area.

Section 51 of the BSA provides:

> If: (a) more than 30% of the licence area population of a licence area is attributable to an overlap area; OR (b) a licence area is entirely within another licence area; the rules of this Part apply to the 2 licence areas, but not between those licence areas and other licence areas, as if the 2 licence areas were one.

Section 6 of the BSA defines overlap area as follows:

> ***overlap area***, in relation to a licence area part of which is within another licence area, means the area of overlap between the 2 licence areas.

For details of population and overlapping licence areas please refer to the Section 30 Schedule available on the ACMA's website.
