Control Notifications

Change of control notifications received by the ACMA for the period

10/07/2015 to 23/10/2026

This report only lists those persons ceasing and assuming control of a commercial broadcasting television or commercial broadcasting radio licence or associated newspaper in the reporting period.

Please refer to the Media Control Database for a complete list of ALL controllers for each commercial broadcasting licence or associated newspaper. The Media Control Database is available here.

The information contained in this document is based on notifications of changes in control provided to the ACMA by commercial television and commercial radio broadcasting licensees and publishers of associated newspapers, and persons assuming control of these licences and newspapers.

- Under section 63 of the Broadcasting Services Act 1992 (the BSA), if a commercial radio or television broadcasting licensee or an associated newspaper publisher becomes aware that a person has come to be, or has ceased to be, in a position to exercise control of the licence or newspaper, the licensee or publisher must notify the ACMA within 10 business days of becoming so aware.

Prior to 12 December 2019 section 64 of the BSA required persons assuming control of a commercial television or radio licence or an associated newspaper to notify the ACMA. Section 64 of the BSA was repealed on 12 December 2019 by the *Communications Legislation Amendment (Deregulation and Other Measures) Act 2019*.

The ACMA is required to maintain a register of these notifications under section 75 of the BSA. Copies of, or an extract from, any entry in the register (including those that predate the reporting period) will be made available on request. Contact control@acma.gov.au.
